***Made from tuffa stuff.***

## ABOUT TUFFA™ PRODUCTS

TUFFA™ Products developed a wide range of highly durable safety tags and products in response to industry demands for increased levels of safety. Over many years, inferior quality tags and products have been a contributing factor in a number of workplace accidents and fatalities.

TUFFA™ Products are a wholly owned and operated subsidiary of Progress Printing. Our experience is in supplying a wide range of safety related print material to mines in remote locations, ensuring that all print can be sourced from a central provider.

Located in Condobolin in the Central West of Regional New South Wales. TUFFA™ Products offer services Australia-wide.

OUR Mission Statement

We will never let our Customers down

Supply the toughest, most durable and strongest tags available.

Aid and assist in preventing work place accidents and injuries by ensuring worksites have more than just adequate tagging.

**TUFFA**  
products.

## CUSTOM TAGS: DESIGN YOUR VERY OWN TAGS

TUFFA™ Products can custom design a Tag that will meet all your requirements.

### Range of Colours

Over 14 different colours available

### Size of Tags

From tiny 10x30mm Tags through to huge outdoor signs through to large 110x250mm Tags

### Shapes

Rectangle, circles, square, rounded corners – heaps of options

### Print

Print in various colours on both sides

### Thickness

Variety of Tag thicknesses available to meet any environment

### Perforations

For tear-off sections

### Numbering

Sequential Numbering available for tracking and traceability

### Corporate Branding

Add your company logo and phone number to your own custom Tag

### What makes TUFFA™ Tags great?

- TUFFA™ Tags are the perfect combination of strength, flexibility and durability
- Amazing life span – can survive outside for years
- Resistant to water, UV, chemical, oil and grease
- Ultra tear-resistant and proven to withstand some of the harshest environments

Custom height and width

## ALL INCLUSIVE SCAFFOLD TAG

We recently produced a brand new style of Scaffold Tag due to feedback received from the Scaffolding Community. We have designed the scaffold to be easy to use, install, be highly visual and ultimately be a great tag.

- No Holder or Cable Tie Required – Tag is connected directly onto the Scaffolding
- Reusable – easy to remove and update
- Easily to apply to existing Scaffold structures
- Easy to Use with Minimal Steps
- Custom printed with your company details and logo if required

## WHEEL TORQUE TAGS

Tuffa Products has created a new safety for mine sites looking to increase safety for the vehicles with a Wheel Torque Tag.

The Wheel Torque Tag provides all the relevant information including torque level, initial checks and re-torque intervals. At each stage the relevant section is signed off, removed and filed leaving instruction for further maintenance on the machine. The Wheel Torque Tag is highly visual and can be customized to suit particular requirements.

Manufactured from our 0.6mm Raptor poly, Tuffa Tags are far stronger and more durable than your usual tags. They are a great solution to many businesses and industries tagging problems surrounding durability, safety and notification systems.

## TAKE 5 BOOKS

Take 5 Notebooks have been created to help workplaces reduce and avoid accidents. The Take 5 Notebook is an easy to use and follow system, designed to be completed on a regular basis by all staff on site before undertaking a task that may be hazardous. Tuffa Products can produce pocket sized Take 5 Notebooks in a range of sizes, styles and formats.

Most books contain Risk Matrix, Code of Conduct, Site Safety Advice and Assessment Pads to be completed.

### TAKE 5 SAFETY BOOKS SPECIFICATIONS:

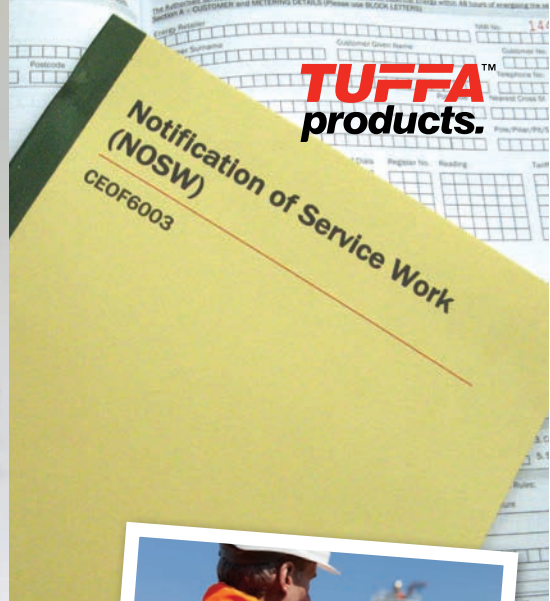

- We can custom design the Take 5 Notebooks for your company with any key messages, logos or slogans
- Wide range of templates to choose from and customise
- Variety of sizing available
- Can be printed one colour through to full colour (photos etc) on both sides

### BENEFITS OF THE TAKE 5 SYSTEM

- Reduce injuries and mishaps on site
- Promotes safety for all staff
- Easy to use and complete

Identify hazards that could impact you, your fellow workers and the surrounding environment.

CODE	DESCRIPTION	SIZE
TK05	Take 5 Books	Various Sizing Available

## CUSTOM DESIGNED DOCKET BOOKS & CARBONLESS FORMS

Create your very own - Quote books, Order books, Tax Invoice books, Con Note books, Docket books, Receipt books plus heaps more. Ensure your workforce completes the right paperwork!

We can produce a book to the highest standard. We only use supreme image carbonless paper to ensure written text transfers clearly with tough covers for durability.

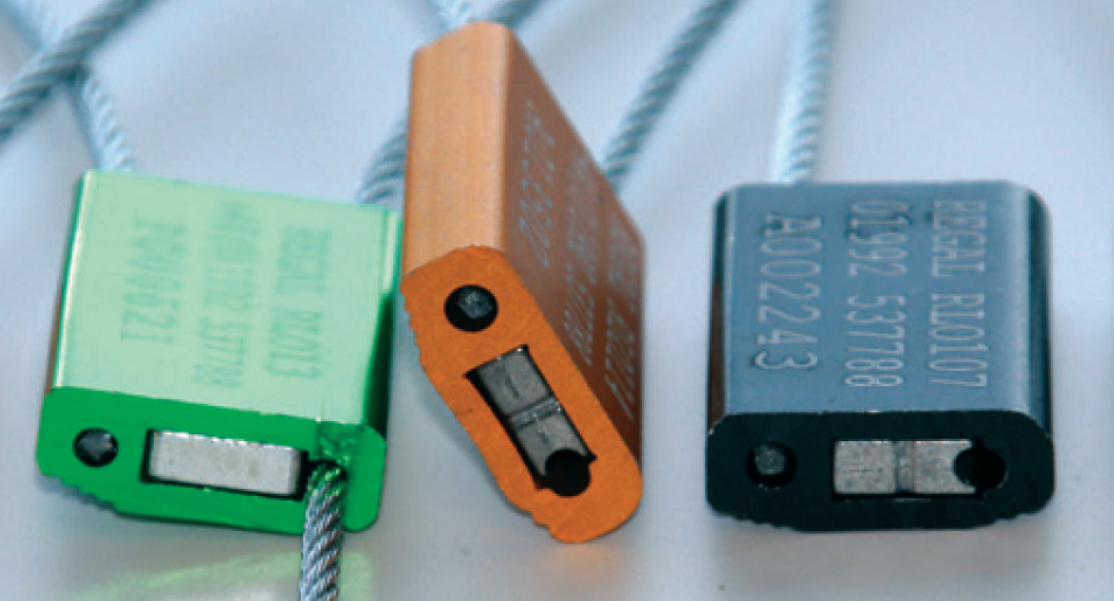

- A4, A5 or A6 sized books available
- Options for singles, duplicate, triplicate and even quadruplicate!
- Options for 1, 2 or even full colour print and also the option to print on the back sheet (e.g. terms & conditions)
- Sequential numbering available

### TUFFA PRODUCTS CAN OFFER:

- High quality books at a great prices
- Free artwork design
- Free delivery within Australia
- Quick turnaround times

We also have the option of making docket books extra Tuffa with the covers and backs made from Raptor Poly. If your docket books are not lasting the distance in tough conditions contact Tuffa Products for a solution.

# WIRE LOCKS

Wire Locks are an economical and highly secure method of locking-out valves or securing containers. The colour-coded corrosion-resistant alloy bodies have a unique serial number engraved on them for traceability. To release the lock, cut the galvanised steel cable. This splays out and prevents the wire lock from being re-used. Often used alongside Lock-Out tags as shown. Wire locks are ideal for high risk environments such as oil platforms and when handling gas piping.

## WIRE LOCKS FEATURES:

- Economical and highly secure
- Galvanised steel aircraft cable
- Once cut, cable splays to prevent tampering
- Ideal for locking valves and securing containers
- Various sizes and colours available
- Often used with locked open/closed tags

## PIPE MARKERS

We have a range of Pipe Markers to equip your work-site with the proper markings for pipes. Ensuring your pipes are marked with reduce errors and aid & assist during an emergency. We also have the ability to custom print your very own Pipe Markers for a specific purpose.

**Sizes Available:** 380mm x 30mm and 400mm x 50mm

**Material:** Durable Vinyl Adhesive

**Custom Printed Markers** – If you would like to create your very own pipe marker please contact us.

## TUFFA PERMANENT MARKERS

When writing on TUFFA™ Tags we recommend users mark the tags with a TUFFA™ Permanent Marker. This ensures that the message written on the tags will not be smudged off due to rain or by hand.

### FEATURES AND BENEFITS:

- Excellent smudge-proof and waterproof qualities
- Fine Tip making them ideal for easy writing
- Permanent, low-odour ink & superb colour brilliancy
- Ink dries in seconds, therefore ideal for left-handed users
